MEMORANDUM FOR: Chief, Domestic Field Group, OIT

25X1

FROM:

Deputy Director of Information Technology - Operations

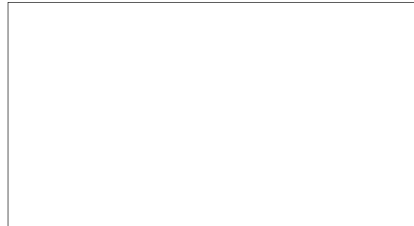

SUBJECT:

Modifications of the WANG ICT Software

Ralph,

AD/OIT wants to assure that if the ICT enhancements fall into the category of administrative or end-user applications (i.e. not communications modifications) that we coordinate with MISG. I concur. If MISG can step up to doing some of these applications we can get greater leverage for the activities and resources of DFG.

MEMORANDUM FOR: Director, Office of Information Technology

FROM: [REDACTED]

SUBJECT: Modification of the Wang ICT Software

1. This office has been most gratified with the recent installation of the Wang Intelligent Communications Terminals (ICT) that have provided efficient data communications between Headquarters and [REDACTED]. The professionalism displayed by your personnel during installation, training and trouble-shooting has been most impressive.

2. As our experience in the use of the ICT increases, we have developed some suggestions to offer for possible modification to existing software, and would enjoy consulting with members of your office in an effort to determine their feasibility.

3. If you concur, we request that your office contact either [REDACTED] at your earliest convenience.
